Pop/Rock with catchy melodies, 3 part harmony and guitar solos. The musical landscape keeps moving as each song has a different vibe. 12 MP3 Songs POP: Beatles-pop, ROCK: 60's Rock Details: BIOGRAPHY OF THE BAND After being in a string of moderately successful bands throughout the 1970's, Claude Dub, a graduate of McMaster University, moved to Los Angeles in 1980 to pursue a music and song writing career. Rather quickly, he found himself playing the Hollywood circuit with the band London (which eventually would spawn Motley Crue). After London disbanded, Claude partnered with Hollywood producer Ron Payne (Minute Men, Dokken, Great White) and for 3 years he honed his production writing skills. The two went on to release an album and EP together. In 1985, Claude returned to Toronto with his family and regrouped with band mates and song writing partner Dennis Decker (lead guitar) brother Dan Dub (bass), Nicholas Holden (guitar/vocals), and discovered drummer Kevin Camilleri by auditions, thus forming DuBay. Since 1990, the band created and promoted through their own label, Limozine Records, 6 original CDs and their singles, including 2 videos. The catalogue includes Bonjour, Emoceans, Take Note, Earth School and Bienvenue (a French CD). Their most recent creation MOVINON launches February 17, 2007. When MP3 was king of the earlier internet's music scene, the band's back catalogue was being downloaded internationally with more than 644,000 plays. The band has been released in Europe by Austin, Texas based BSW Records, and garnering Dubay their first favourable radio play in France, Netherlands, Germany and beyond. By 2000, DuBay had performed over 500 shows in the Golden Horseshoe at legendary venues like the El Mocambo, The Diamond, and The Gasworks. They've shared the stage with some great Canadian artists like April Wine, Alannah Myles and The Tea Party. They have performed dozens of corporate shows for the Hamilton Tiger-Cats and the Hamilton Bulldogs, the WWF, Camp Trillium, and twelve municipal events for The City of Hamilton,

including a Canada Day festival for over 40,000 people! DuBay is a band that loves to play for their fans. Known for their History of Rock cover set, the band adapts and performs custom gigs, including Hamiltons most recent Mayor elect Fred Eisenbergers campaign launch! As life would have it after 12 years, change was inevitable. With the addition of Pat Campion (drums) and Peter Bellm (bass), The DuBay Band as it is now called, progresses into new and exciting rhythm. The blues influence these musicians have brings to the traditionally upbeat music that is DuBay, a darker more "Nietzsche" view of the world. The songs rock for the most part and the album is rich in emotions and melodies however this one acknowledges that life is not without pain and not all relationships will last. MOVINON also credits Dennis Decker with engineering, recording completely digitally, in Limozine Records new Pro Tools Studio. The young, up and coming Mellissa Bellm offers her vocal talent on two songs and has performed with the band on several occasions and will be performing with the Band at the Westside Concert Theatre on Feb. 17/ 07. Supported by BLR Entertainments Rob Rapiti, The DuBay Band plans to concentrate more on corporate venues and selected clubs and casinos within the Southern Ontario's golden horseshoe. While concentrating on marketing their music world wide through publishing and the internet, The DuBay Band is "Moving On", always adapting and surviving technologically as well as personally. They are professionals and are still ever hopeful for our world and the spiritual Universe. Movinon, Watch for it! Review of Movinon A mixture of blues and rock, The DuBay Band is a collection of very talented and experienced musicians creating an array of classic rock and pop songs. Sounding similar to bands ranging from ZZ Top to Kansas, with even influences from The Beatles. Their mixture of sound is represented very well with skilled guitar melodies, accompanied by a solid interlocking bass and drum grooves held together with great vocal melody and harmonies. Tr. 1 Wouldn't you - Catchy melody with good hook for the chorus Tr. 3. Move More laid back country influenced track with a mix of acoustic and electric guitar combined together very well Tr. 8 Ghost Great acoustic introduction to a very funky groove with featured female vocalist belting a powerful and talented voice Damon Kellard at Bryan Farrish Radio Promotion radio-media.com/
