Sweet female vocals with sad lyrics and upbeat rocking music 11 MP3 Songs POP: Today's Top 40, POP: Power Pop Details: Tracy says: I'll always be a Minnesota girl at heart, I grew up Minnetonka, in a small town in the land of 10,000 lakes, where the mosquito was almost the state bird With stars in her eyes from an early age, she spent her childhood singing songs shed made up to get her little sister to stop crying. The first song was called Waltzing with the Turtles and Dancing with the Ducks it was a hit with her target audience at the time, her 2 year old little sister. Shes been hooked on writing ever since. The lyrics have changed and shes far from home, but her sister is still her biggest fan, shes just got competition now from the rest of the world. Tracys first 6 song EP "Oceans Under Jupiter" was produced by Jesse Pruett (Singer for Parker Theory [myspace.com/parkertheory](http://myspace.com/parkertheory)) and engineered by Jeff Forrest (Doubletime Studio). The EP ended up getting a great reaction when it was released. A couple of the songs were featured on MTVs The Real World Denver. XM Satellite Radios Radio Unsigned program featured Tracy as one of the \*Futures\* defined by them as Artists to look for in the future as they are gaining momentum every day. XM also featured her music on The Radar Report a special weekly radio program highlighting the 12 most notable artists in the United States In addition shes been getting airplay on 91X 94.9FM. Having shared the stage with national touring acts such as; Ben Lee, New Buffalo, The Beautiful South, Carbon Leaf, Ryan Ferguson, Sean ODonnell (Reeve Oliver) and many more, Tracys music seems to transcend genre and age barriers. In a crowded coffee house or on the main-stage at a rock show, Tracy has a way of making you feel like she's singing just for you. Her sound has been compared to Sarah Mclachlan, Kelly Clarkson, Fiona Apple and Avril Lavigne, but make no mistake - she has a style all her own. Tracy is the girl next door with the guts to sing everything you've ever wanted to say out loud but couldn't find the words for. A self proclaimed "lover of love" she tends to end up in

situations that make for heart wrenching lyrics. You'll hear her sing once and enjoy it but there is something right below the surface that grabs a hold of your senses and won't let go, until you find yourself listening to the songs over and over and over again, singing along at the top of your lungs, out the car window, with your heart on your sleeve. After many months of hard work the full length album "Dreams In Cold Weather" is set for release in May 2007. The full length album has been creating a buzz prior to its official release. The Good Life a single off the unreleased Dreams in Cold Weather was featured on a compilation CD sent out to radio stations all over Europe, The single spent 9 weeks on the Top 40 Charts on Capital Radio in Turkey (one of the two largest radio stations in Turkey) debuting at #32 and climbing up to as high as #23. I was so excited about it and it was such a bizarre thing, I was getting fan mail from Turkey and wondering how they had heard of me. From then on I was announcing to everyone Im huge on the Turkey charts which always seemed to make people laugh, so I finally said let me rephrase that, Im charting in Turkey If you want to know more about me you should listen to my songs they tell my story, from heartbreak to love, sadness to anger, living and dying, and everything between. Sometimes I laugh too loud, I splash through puddles when it rains, and I dont take myself too seriously. A few of my friends call me angel, (but thats because Ive got them all fooled ;-)) Im a sucker for words on a whisper and photographs of places I might never see. I think music is my boyfriend and Im madly in love, thats me. Tracy Oceans Under Jupiter EP is "an arresting comment on pop and well worth an ipod upload or a soundtrack for summer cruising with the top down Forsaking surface pop for melancholy catchiness" San Diego Citybeat Magazine Tracy Johnson sings love songs in a way that makes you believe that shes a girl who falls in love, hard and fast and with her whole heart. Thats the hallmark of a good love song because it lets you as the listener believe in the message of the music. Add to the fact that Johnson supports her vocals with strong instrumentals and a variety of musical influences and youve got a singer who makes you want to believe in her Indie In-Tune Magazine.
