

# Somatic Embryogenesis

[DOWNLOAD HERE](#)

Storage Proteins and Peroxidase Activity During Zygotic and Somatic Embryogenesis of Firs (*Abies* sp.).- Origin, Development and Structure of Somatic Embryos in Selected Bulbous Ornamentals: BAP as Inducer.-Environmental Design Considerations for Somatic Embryogenesis.- Importance of Cytoskeleton and Cell Wall in Somatic Embryogenesis.- Comparison of Molecular Mechanisms of Somatic and Zygotic Embryogenesis.- Genome-Wide Expression Analysis of Genes Involved in Somatic Embryogenesis.- Why somatic Plant Cells Start to Form Embryos?.- Participation of Plant Hormones in Determination and Progression of Somatic Embryogenesis.- Somatic Embryogenesis of Pine Species: From Functional Genomics to Plantation Forestry.- Somatic Embryogenesis in *Pinus nigra* Arn.: Some Physiological, Structural and Molecular Aspects.- Mode of Action of Plant Hormones and Plant Growth Regulators During Induction of Somatic Embryogenesis: Molecular Aspects.- Somatic Embryogenesis in Chestnut.- Somatic Embryogenesis in *Cryptomeria japonica* D. Don: Gene for Phytosulfokine (PSK) Precursor.- Protein Markers for Somatic Embryogenesis.- Cytological, Physiological and Biochemical Aspects of Somatic Embryo Formation in Flax.- Somatic Embryogenesis in Rose: Gene Expression and Genetic Transformation.- Embryogenesis in *Catharanthus roseus*: Roles of Some External Factors in Proliferation, Maturation and Germination of Embryos.- Somatic and Zygotic Embryogenesis in Avocado.- Somatic Embryogenesis in Genera *Medicago*: an overview.- Differential Gene Expression During Somatic Embryogenesis.- Gametic Embryogenesis in *Triticum*: a Study of Some Critical Factors in Haploid(Microspore) Embryogenesis.- In vitro culture of *Arabidopsis* embryos EAN/ISBN : 9783540287339 Publisher(s): Springer, Berlin Format: ePub/PDF Author(s): Mujib, A. - Samaj, Jozef
