Helping a child through the toilet training process may be one of the greatest challenges a new parent or caregiver faces. When it comes to this important developmental stage, every child is unique. Some are "ready" earlier than others, and not all children respond to the same approach. This guide with expert advice from the American Academy of Pediatrics, helps parents and caregivers navigate the confusion and often conflicting advice from friends, relatives, and other sources, to provide the best experience for their child. Ayudar a un niño a través del proceso de aprendizaje para utilizar el baño puede ser uno de los mayores desafíos para el padre o persona a cargo del niño. Cuando llega esta importante etapa de desarrollo cada niño es único. Algunos están "listos" antes que otros, y no todos los niños responden positivamente a la misma forma de abordar esta etapa del desarrollo. Este libro brinda el sano consejo que ofrece la Asociación Americana de Pediatría y ayuda a los padres y a las personas a cargo del niño a manejar el poco claro y a veces complicado consejo de amigos, parientes, y otras fuentes y provee la mejor experiencia para sus hijos.
