How To Create And Setup A Database Plr

[DOWNLOAD HERE](#)

A Step By Step Tutorial Many people tell me they arent very fond of scripts, because the install frightens them a bit. And its true: creating a database, importing tables, your sites root path if you dont know what youre doing, this looks pretty complicated. Luckily, it is not, once you get the hang of it. Thats why Ive created this step-by-step tutorial on how to set up a database. Ive included a screenshot for every step of the way. Private Label Rights +Source Documents + Sales Website
