A divine musical conception of roots reggae. 16 MP3 Songs WORLD: Reggae, HIP HOP/RAP: Alternative Hip Hop Details: Breeze's aim to be in the music industry has always been one of his greater desires. He knew and admires a lot of different artist down through the years and knows that one day he will become one of the people that delivers their message through songs. In 1987 he spent a lot of time writing and working on materials that he felt could be motivating to many listeners. Setting up performances in different areas and small clubs down town Dallas Texas at the West End was also a wonderful challenge during that time. Things got stagnant for a while and he moved to Los Angeles in 1992 for about six years working a nine to five job and playing his guitar in his spare time. In early 1998 he return to Dallas and linked up with Timba (his nephew) who had the same interest in music that he had always displayed. This is exactly what he needed, some one to stand by my side and believe with me in his dream. He went to God, as he always had, and prayed about starting up with this dream and taking it to fruition. Breeze felt that this is what Jah wanted him to do and sent (Ninja) Timba to stand by his side. Listen to Mighty Fists of Dreads and Experience the soultry sound of roots reggae...redesigned with a new twist. Prepare yourself for vocal instrumental enjoyment.
