A collection of solo acoustic guitar pieces ranging in style from romantic ballads to blues and ragtime 16 MP3 Songs FOLK: Fingerstyle, EASY LISTENING: Adult contemporary Details: "Six String Shuffle" is a collection of solo acoustic guitar pieces running well over an hour's play time. All the pieces are original compositions except the traditional tunes "Amazing Grace" and "Sheebeg Sheemore". Despite what the CD title may suggest the music ranges in mood from romantic ballads to blues and ragtime. I hope there is something here for everyone who enjoys acoustic guitar music. My earlier background in guitar is classical guitar but now I am writing music for steel string fingerstyle guitar. Guitars recorded for this CD include a Collings OM-1A, Collings C10 Deluxe, and an Albert Mueller S-6. This is my third CD and my recording sound has evolved. For those interested these songs were recorded in stereo with either Microtech Gefell M300s or a M300 with a Neumann TLM 103, preamped with a Great River MP-2H, and then on to a RME Firewire 800.
