Fun, soulful, happy truth music. With a flare for the versatile grooving ear. Real and inspirational down to earth funky. 12 MP3 Songs URBAN/R&B: Rhythm Blues, URBAN/R&B: R&B Rap mix Details: We got together to make a go at a group thing! Came out pretty good! By adding all the flavors together we came up with some cool songs and vibe from an uptempo gospel feel, to a smooth party all night feel , at the corner of that old soul music to the streets of hip hop rap music a little down the way to plain fun to do music, and some silly dare you to sing that stuff like "the Vent song". Naldo Keith has a new cd coming soon and Maiti has already released his first solo cd and is doing well. Aretta is gone all gospel and doing it like she loves it! Truck is also solo! This music is fun and opened minded stuff something for everyone. Keep your eyes open when listening to this stuff cause you might see the picture that is being painted by all the artist involved in making this musical work come to life.
