A high spirited mix of passionate love songs and bittersweet ballads about life Up to Now. Ernie Votto wows us again with his second CD of lively acoustic originals. 14 MP3 Songs FOLK: Folk Pop, POP: Folky Pop Details: More adventures in Songwriting. Here are love songs from the bitter compromise of "Never Heard a Word For It" and "Is the Sun Going Down?" to the affectionate "The Sweetest Thing". There's pure joy in "Raining Love" and yearning in "Waiting For My Love". International intrigue, love and tragedy make the story of "We All Run Away". "The Aspen Fire" is about the fire on Mount Lemmon near Tucson in 2003. "Who's In Love" is just a perfect coincidence. The title track "Up To Now" about how time goes by and then stops dead. "Marivan" is the woman of your dreams who just happens to be married to someone else. "Down By The Pit" is a song about how the people you know growing up stay with you through your life. There's more more more. I don't know if these are folk songs... they're about folks Americana ...they're certainly written with an American accent or even pop ..a lot of people do like these songs.. I've decided as much as you can decide these things to write what moves me.
