myspace.com/fatima :: The latin alternative rock en espaol scene keeps pushing forward, and helping in moving it along, you find FATIMA. in the frontline. Full of energy and good vibes, Fatima always delivers their hearts on their sleeves to everyone. They play every show like if it were their first and their last!...

Formed in East Los Angeles, California, in 2000, they came out of hiding in August of 2001. Without a demo or recording of any kind, they have managed to continuously stay very busy by word of mouth and self promotion. Their hard work both on and off the stage has put them in some of Hollywoods most famous venues (ex: the ROXY theater, the KEY club, HARD ROCK CAFE, and the HOUSE OF BLUES).

The Los Angeles band says that their influences vary among members, ranging from Bob Dylan, Deep Purple and the Buena Vista Social Club, to Mana, the Pixies and the Cure, along with more contemporary bands like the Strokes, the Ataris, Jumbo and Outkast. Their appreciation for music and their friendship is what brought this band together, and it is also what keeps them rocking. They bring an alternative rock style that manages to light every emotion on fire. The band went into Cuicalcali Recording Studios in 2003 to begin work on what would be their first recording and their debut album, Ojos Cerrados, due in your stereo... soon!
