New age jazz instrumental with a touch of class that will keep you rockin all winter long and beyond.... 5  
MP3 Songs JAZZ: Latin Jazz, NEW AGE: New Age Details: This sophomore EP CD entry from  
homegrown instrumentalist-songwriter-producer J Gulli is a follow-up to his debut release "Into the Light"  
which was a musical offering of transition, growth, and inspiration within a smooth jazz-soul fusion  
package. "Chillin in December" is an all instrumental excursion about the sights and sounds of the Windy  
City experience and influence. Gulli's contemporary new age-soul-jazz fusion delivers a breezy  
interpretational tribute to Chicago-born icon musician-producer, Quincy Jones on "A Tribute to Q" that  
exhibits a pupils careful attention to his idols musical style and texture that he weaves his own  
composition. David Schultz of the North Lawndale Community News on the title track "Chillin in  
December" writes "an infectious steppers groove cut that is an instant crowd pleaser that deserves airplay  
and club sampling." "Chicago Express" captures your imagination as to the frantic pace of the Windy City  
people, their attitude, and travels. J Gulli's "Chillin in December" clearly shows the musical affection he  
has for his hometown and its people. Gulli's keyboard wizardry is on point and considering he is the lone  
musician working on his computer generated instruments, there is a consistency with his fusion sound  
that warrants some attention as an artist on the rise with musical stamina within his production.
