Can you believe it?!! This album has evolved after playing all over the United States and even as far away as Northern Ireland. I have had the opportunity to meet so many wonderful people along the way who have all asked, "Do you have a CD?" Now at long last, I can answer that question with a resounding YES!!!! I have struggled for hours, days, weeks, months and now years. The songs on the disc are far from perfect. They were recorded entirely in the spare bedroom of my house with all the limitations that come from that. Some I am wonderfully pleased with, and others, well.....at least they are finally finished. As far as song selection, I have had many requests. There are even new songs that have been born during this CD process, but I finally just had to use the songs that were finished. I hope you enjoy! Kermit Easterling is a singer/songwriter who, with his wife, Kristen, his dog, Bailey, and his cat, Essie, presently call Tennessee there home.
