Details: Despite being in the musical world for over two decades, it was a year of convalescence and getting used to a titanium plate in his spine that set Ahwatukee Foothills resident Eric Malmstrom on his current path. I spent 15 years on the road as tour manager engineer for other groups, he said. As time went on I started feeling weaker; turns out I had 2 herniated discs pressing up against my spinal chord. Six wooden screws later, Eric Malmstrom - who records under the moniker Bretheren Sol - found himself with a guitar and time to kill. It all came about during a period where I was really hurt and laid out for a year, he said. I got better and it all came together. Indeed it did: the Bretheren Sol Cd, Devils Rope, is a fantastic blend of acoustic Americana roots, outlaw country and indie pop country blues. The record, named after a slang term for barbed wire has generated quite a buzz in alt-country circles. Bretheren Sol Mixes today's issues and folklore marked by the Sonoran way of life
