If Ozzy and Enya got married and gave birth to Steve Vai, this would be the music coming from the nursery. Instrumental Rock, driving guitar melodies. 10 MP3 Songs ROCK: Instrumental Rock, ROCK: Modern Rock Details: Brian Lindsay lives in Lebanon, Oregon. He developed a love for music when he began taking his first piano lessons as a little boy. Then one fateful day he discovered (to his family's horror) Electric Guitar. Things have not been the same since. It has become obvious that what goes on in this man's head is not normal, in fact it is sometimes down right scary . His music has been likened to "Ozzie Osborn meets Yanni." Brian is a graduate of GIT in Hollywood , California and his current project, Dreams of Things, has been well received by the young and the not-so-young as well. All the music on this project was written, arranged and produced by Brian. All the instruments were played by Brian with the exception of the violins and cellos (see cover for credits).
