They try 2 keep tha knowledge classified,so we will stay pacified- My blood boils, touches tha soil under tha concrete- Chainz are breakin', Giants waken from a long sleep- Try 2 be at peace but ya'll ain't goin' 4 it- this problem won't ever go away if we ignore it- Had a wound on my soul my psyche now it'z infected- I tried 2 use a band-aid then just forget it- Now it'z poisoned will kill me if I leave it unattended- A lot of us still need 2 heal cause we just pretended- That everything's OK, But our father's so offended-- (excerpt from Tearz of Ink song, copyright Silas Clark WAR CRY PRODUCTIONS 2003) If you only like shallow booty shakin' hip-pop then this album iz not 4 you. The time has come for us to stand up against a passive existence. Start to see, think for our selves, not to accept the watered down half truths that are being passed down to us systematically through false religiosity, ambitious politicians, degrading stereotypes. We have been taught to be so selfish when the only thing that matters in life is love. The word love has been misused, abused, slandered that it almost sounds like all the other 4 letter words. But Bruthaz Sistaz learn what real love is, seek truth only, not what you want to believe or what

you've been taught 2 believe but what rings true in tha essence of your spirit.SEEK U WILL FIND. ONE
LOVE
