MP3 Songs ELECTRONIC: Trip Hop, ELECTRONIC: Industrial Show all album songs: the Invisible Truth

Songs Details: This album is a sort of best-of compilation of Headphoneboy's music, with tracks taken from his albums The Great Masturbator (abridged), Act One, Act Two, Act Three, and You're Dead.

Headphoneboy is George Dalphin, sometimes. The rest of the time, he floats back into the aether where he feeds on the collective-subconscious like a zeitgeist illithid. Headphoneboy is a musical ronin; he is masterless and powerful; his thought-wanderlust is ever replenishing. Also available on CDBaby and through iTunes, please find Headphoneboy's first album The Great Masturbator (abridged). His other albums will be available here soon.
