Girl-boy pop toy synthesize electronic bubblepunk for futurewave action figures to dance to. 14 MP3 Songs ELECTRONIC: Dance, POP: New Wave Details: THIS LIMITED EDITION CD HAS SOLD OUT...HOWEVER IT IS STILL AVAILABLE FROM YOUR FAVORITE DIGITAL DOWNLOAD SITES! Purveyors of perfect pop, Hyperbubble have the looks, the moves, and the sound. Wherever they go, they bring it . . . and poplovers dance. Almost fully hidden behind a triple-tier stack of synthesizers and drum machines that power the groove, Jeff turns the knobs like no other, only surfacing for the random karate kick or to strike a pose. His glitterglamorous counterpart, Jess, lets her seductive vocals drift over the proceedings like an angel from the future. Catchy call-and-response singing from the duo will have you singing along. Their music combines the best of Eurodisco, New Wave, and Electronica. Comparisons to Blondie, Berlin, and Donna Summer/Giorgio Moroder are perfectly in order. On Solid Pop: The Remix Edition, Hyperbubble lovingly overhaul every track from their debut album, Solid Pop, giving them extra shimmer and bounce. "Vending Machine" is twice as robotic, "Bionic Girl" is even more bionic, and "Psychic Connection" is given a space-age synth treatment that'll blow your mind. Track-per-track, Solid Pop: The Remix Edition is pure cyberpop fun.
