***** Review by Dan Mollen Chesapeake Music Guide December 2003 New York's loss is Maryland's gain. After a brief dalliance with renowned New York producer Timbalake (of Missy Elliott and Justin Timberlake fame), Meg Murray came home to Annapolis to record her R B flavored CD "Ready" in November of 2002. And now, in a turn both prolific and

versatile, Murray returns with the jazz-inflected holiday treat "I'll Be Home For Christmas." This is the kind of seasonal record that Ella or the Velvet Fog made back when singers knew the importance of phrasing. Remember phrasing? Well, Meg does a fine job of crafting songs rather than bludgeoning them to death in the manner of today's American Idolized pop singers. She's like the bizarro Celine Dion or Mariah Carey in a parallel universe - a universe where over-emoting and vocal gymnastics do not a fine singer make. Although perfectly capable of running up and down the scale, Murray has learned that the best notes are sometimes those left unsung. And while most Christmas standards have been done to death, the combination of stellar musicianship and exquisite taste here allows Murray to put her own stamp on some time-honored favorites. WARNING: With an album this sophisticated and stylish, "I'll Be Home For Christmas," may force you to throw a party that is as cool as this sounds. Regardless, make sure to unwrap it before Christmas so Meg Murray can provide the soundtrack to your holiday season in its entirety. Consider it a gift to yourself. *****
