

Mp3 Mr. Creed - Won't Be Denied

[DOWNLOAD HERE](#)

The dirty south is definitely heard, but this will take you to other planes of hip-hop as well. 10 MP3 Songs
HIP HOP/RAP: Rap, HIP HOP/RAP: Southern Style Details: Mr. Creed started his company, Knightmare Music to showcase his talent in a way that lets him retain creative control while producing a sound quality that rivals the major labels. The first thing you will notice about his music is that there is no set pattern. Unlike the majors who act as if quantity means more than quality. The southern sound is definitely heard, but not the only flavor. This CD, like hip-hop culture, has many different things to offer in terms of topics and music. We produce music we think sounds good and the audience will like. We are not trying to put anything out just to say we have something out there. The CD "WON'T BE DENIED" will be released Sept. 30, 2002. Our main goal is to let the public hear our music by doing local shows and create a following to help us strengthen our negotiating power when we are approached by a distributor or label.
