Acoustic, folk laced pop, unique and eclectic; a combination of folk-rock and pop; a voice that's been compared with Cat Stevens and a style that morphs The Beatles, James Taylor, Crosby Stills Nash, Matchbox Twenty and...Steven Kalas 14 MP3 Songs POP: Folkly Pop, ROCK: Folk Rock Details: Ive never met you. I dont know you. But without you there would be no musical adventure at all. So, thanks for dropping by. Thanks for listening. Thanks for being part of my world. I hope my music makes you smile. And feel. And think. When we meet, well have a lot to talk about. Finally Here was conceived on the day I decided to quit music altogether. My I-quit speech was interrupted by a phone call from Fred Migiliore and Fast Forward Artist promotion. Fred invited himself into my life. Finally Here is the result of my accepting that invitation. Fred changed my life. He was the missing ingredient. He promotes my career, yes but more importantly he transFORMED my understanding of myself. For so long I was a man casting about in the musical universe, trying on styles and identities like so many suits off a rack. Fred helped me find a form, a place, a niche, and a real identity. Whats finally here is me one singer/songwriter instead of many. Finally Here was recorded at Digital Insight recording studios in Las Vegas, Nevada. It was remixed and mastered at SoundWard Studios in Titusville, Florida by Mark Brasel and Fred Migliore. Together, they coaxed and shaped a quality of sound I had never before achieved. Whats finally here is a Steven Kalas I had never heard before. So give a listen. Buy my record. Tell your friends. Invite us play for you.
