

Critical Care Infectious Diseases

[DOWNLOAD HERE](#)

Infections and their complications are a very important clinical area in the intensive care unit setting. Community-acquired infections and nosocomial infections both contribute to the high level of disease acquisition common among critically ill patients. The accurate diagnosis of nosocomial infections and the provision of appropriate therapies, including antimicrobial therapy effective against the identified agents of infection, have been shown to be important determinants of patient outcome. EAN/ISBN : 9783540344063 Publisher(s): Springer, Berlin Discussed keywords: Infektion / Infektionskrankheiten, Intensivmedizin Format: ePub/PDF Author(s): Rello, Jordi - Kollef, Martin H. - Daz, Emilio
