

Law Of Energy For Sustainable Development

[DOWNLOAD HERE](#)

Presents research on the crucial issues concerning energy law, that are facing the international community. The research focus for the IUCN Academy of Environmental Law in 2003 was a timely and challenging one, entitled 'The Law of Energy for Sustainable Development'. As contemporary world politics demonstrates, energy resources and generation are crucial issues facing the international community. As research on energy law, at the international, regional, and national level is in its infancy, the insights provided by the contributors to this volume are a significant addition to the field.
