Sinister shimmering electro-goth. Includes remixes by Tapping the Vein and Schne Maschine as well as a sexed-up hatch of Soft Cell's "Tainted Love". 6 MP3 Songs ROCK: Goth, ELECTRONIC: Industrial No More You Songs Details: "If Baudelaire had been fond of whiskey, he might have been a precursor to Advent Slumber Malign unhinged and a hell of a lot of fun, Egos and Eros is a unblushing celebration of warped passions in the key of rock and roll. But there's no pseudo-Satanic schlock here, just a mischievous revelry in the inventiveness of humanity's psychic underbelly, and catchy riffs by the coffin-full. Advent Sleep are definitely the un-death of the party." -- Rockband.com
