People LOVE the way she can take a song, breathe some of her magic into it create something unique make it her own in a way that most have never witnessed before. Slip Beneath the Covers Volume 1 is the first in a series of cover cds due to be released by the artist from 2007-2009. I wanted to begin the series on a slightly romantic note, so I compiled a list of some of my favorite songs the rest seemed to come naturally. People from all over the world travel to the lush, tropical island of Maui to frolic in this South Pacific paradise, not knowing what to expect when they stop off for some live music one of those blue foo-foo drinks with the umbrella at one of the local night clubs. Much to their amazement, they come to find that they too have just discovered one of the best kept secrets of the Hawaiian islands! Anastasia performs with her band, The VooDoo Suns also has 3 duet partners, each with their own special attributes. Three guys, three different instruments, three different genres of music to explore with each of them. R&R, R&B, Jazz, Country, Originals beyond. Her voice is so versatile that its hard to put her into just one category. I wanted to perform all kinds of music I wanted to take everything back to the essential basics. There is something pure authentic in music performed with just a voice, guitar percussion or a piano or keyboard to accompany it. That thought was the inspiration behind my duet projects. Its been so well received so many people wanted to take home a part of what theyd experienced that making a series of cover CDs was the logical next step.
