Story filled vocals, rhythmic acoustic guitar, tantalizing fretless bass, and jazzy rhythmic drums makes this band one of the best new acts. 5 MP3 Songs POP: Today's Top 40, FOLK: Power-folk

Details: Greetings! We're some folks from Austin, Texas who love making original music that sounds groovy, and helps to make the world a happier place by influencing people in a good way. When we perform this music, it makes us smile and makes us feel like dancing a little groove. The synergy in this band is amazing and we look forward to sharing it with you. Some folks say our sound is a blending of pop, jazz, and a little folk. People say we sound like John Mayer, Sting, Dave Matthews, and Steely Dan. Please give us a listen by clicking the music links on this page. Our sound consists of percussive acoustic rhythm guitar, groovey bass, melodic lead guitar, expressive drums, and story filled vocals. We are happy to offer our album, GREEN, to you the listener! GREEN, is really an EP. That means it contains fewer songs than an album. Remember those great EPs from the 70's! GREEN truly captures the magic of how we felt when recording this project in the studio. Our next project will be a full length album featuring more original songs - developed from our timeless live show experiences. If you can, catch Caldwell Shine \*\*\*LIVE\*\*\* where you can hear our extensive repertoire and all the spontaneous expressions that are a big part of the sound. People like to dance and move to our music and very often, the music evokes a smile on their faces. If you can't catch us live, buy GREEN - which will forever be a lovely snapshot of us in time.
