Related styles: POP: Quirky, POP: Sunshine Pop People who are interested in Tom Lehrer Dr. Demento should consider this download. Details: "Very funny and on the money! This whole album is a gem." KAOS Radio "When describing Cali Rose, the words "wacky" and "zany" come to mind...unexpectedly good music backing up the jokes..." Dr. Davis "In her most recent work, multi-talented singer/songwriter Cali Rose offers up an eclectic brew of cute, witty and sarcastic little songs, musings and observations. Delivered in an effective, low-key manner, this comedy/acoustic album interestingly meshes together many of Rose's various musical influences. From blues, country, jazz, pop and Latin to the overt folk vein, she delivers some truly hilarious, sweet and stabbing meditations on the silliest aspects of life that we often take for granted." Campus Circle "'It's a P.M.S. Kind of Day,' 'The Doggie-Doo Blues,' 'Pooey, Pooey, Pooey, It's Christmas,' and other humorous songs about life in the 90's fill this sparkling collection, entertaining written and sung and beautifully produced." Dr. Demento "Singer/songwriter and multi-instrumentalist, Cali Rose, has produced a delightful and eclectic brew of fun, playfulness, intelligence and wit. Her piano and guitar playing is also excellent and she is joined by many talented musicians on this CD. She may be goofy, but she sure is good!" Picklehead Music "Cali is a witty, charming songwriter with a great sense of humor. Her keen sense of the obvious is truly a gift, seriously. All the simple things right under our noses that we may overlook in a particular situation, Cali sees them and hand it back to us in a delightful and enchanting musical display. There are no "fluff" words here. She calls them as she sees them and make no mistake, although the content makes us laugh, Cali Rose is an exceptional artist with a serious love for music."
