I like to start out my New Age albums with an upbeat sound (easy listening and very mellow) and ending with total meditation. This album is no different, including a great deal of ambient sounds. 8 MP3 Songs
NEW AGE: Meditation, NEW AGE: Healing Details: This album is truly enchanting. I enjoy starting out my albums in a mellow state, allowing them to end in a meditative state. This album is no different, complete with ambient sounds. Heaven's scent is presented in two formats. The first, a studio mix is with percussion, and the later is a mellow meditative version, allowing you to wind down after a hard day.
