Country music at it's roots with a twist of humor and songs written from the heart with a smooth baritone sound. 10 MP3 Songs COUNTRY: Traditional Country, COUNTRY: Modern Country Details: TopCountryMusic.Com Review Grammy nominated country artist, and fellow Texan, David Cline puts the (steel) pedal to the metal with his newest "Another Man's Treasure." His selection and artistic writing of his album's songs show that great music shouldn't be aimed only at the fans in their teens thru thirties. His music is country music at its roots, right where it should be. Being independent from the hassles of major labels, he is free to write as he feels, and the terrific results show it. The title track single, "Another Man's Treasure" is a tribute to his father, and "Longhorn Cattle Baron" was written in response to his cattle days. Songs by Vince Gill and Hank Williams also add pizzazz to the CD, certainly worth a place on your CD rack.
