Details: Denzel Lawrence - a refreshing combination of singer, songwriter and producer all emerging from the stable of 4G records - a record company formed by Denzel a couple of years back. He is ready to take the world by storm, but are you ready for him? Denzel's creative contributions are extremely varied. He has written and produced for an upcoming RnB band in Holland "First Avenue", provided some captive rhythms for Swedish Hip Hop crew "Stand firm" and also penned and produced four tracks for UK girl group "Untamed" leading to the group's management securing some promising meetings with the Universal Music Group (France). With all this taking place within the first year of launching his company, Denzel caught the artistic bug and started focusing on himself. This led to the compilation album Phat n Heavy volume 1, his contribution of 5 hard-hitting tracks. National tours in his homeland (United Kingdom) and regional performances in territories such as The Netherlands, followed. The response was breathtaking! So what does Denzel Lawrence have to offer? Well, that's for you to check out. Look out for his Debut album Chapter one: Relationships. It will take your breath away. The area of relationships has left people bemused, hurt, elated, frustrated to name but a few emotions. Having experienced all these and more, Denzel being an open and honest man who believes he didn't go through all this for nothing decided to share his spin on Relationships . You will find this album both entertaining and truthful. Enjoy.
