Song Breakdown: 1)Let's Flow- This is a song about us getting in sync with what we are born to do. This is more of an uptempo hard thumping song that will be appreciated by Rap Fans. 2) God is Good- This is our first Gospel Song that we did together when we decided to just do Gospel Music. This really is a testimony to what God can do when you open yourself to what he wants. The theme of the song is something that is really true for all eternity. 3) Takeover- Another Street Banger with nice word play. It's a song that reveals our intentions to do big things with what we've been blessed with. 4) Praise Him (E.S. Mix)- This version of Praise Him has a lot of punchlines. You may need to rewind it a few times to really catch what was said. 5) Pain- Everybody goes through hard times. This is a song to encourage everybody to trust God through the storms in life. 6) Let His People Go- A song of deliverance that can be considered an outreach track to the non believer. A powerful message with a lot of truth behind it. 7) Pray For You- Probably the most thumping beat on the album. This track is another one that reaches out to the non believer. This one just shows them that even though we are following Christ, we still have love for them and will pray for them. 8) Reminder- Nsight raps Spritual food over this Ol Skool style beat that will feed all those who have Spritual hunger. 9)Street Ministry- A Track that will truly have you waiting to hear

what comes next. Calmazin pours his heart out on this one to reach out to all those who need encouragement. 10) Jesus- One of the Most Popular Elite Status Songs that brings our attention to who is the most important person. 11) Calvary- A track that will challenge everybody to work out their salvation with fear and trembling. 12) Outro- A mellow track to end the album off to leave you with some meat to hold on until the next album comes out.
