Washington DC and its surrounding suburbs now boast the arrival of Hand Painted Swinger. Long before Kelly Clarkson had us swooning for her on American Idol, Hand Painted Swinger humbly began as the PestStrips, a well sought after cover band that played the Washington, DC, Baltimore, MD, and Northern VA music scene exclusively, performing 5-15 monthly shows throughout the 1990s. The PestStrips recorded a full length CD of original music in 1996, entitled "Sticky", which was nominated for a "Wammy Award" by the Washington Area Music Association. The PestStrips received favorable reviews for "Sticky" and promoted it until they stopped performing live in 2000. Long time friends Jim Higley, Billy Plank, and Bob Shellhouse reunited in 2004 to write and record all new material. Today, the 3 long time members are known as Hand Painted Swinger and were recently joined by David Vespoint, ex-bass player of Interscope recording artist, Love Nut, to round out their unique sound. Now well over a decade after they originally began, "Speed Hump" finds the band in true form emphasizing steady pop-rock soundscapes met head on with tasteful song crafts. The band uses an effective mix of melodies and heartfelt lyrics that truly exhibit their maturity as musicians to captivate audiences everywhere.
