I loved sitting under the dining room table while my Dad sipped cheap beer from a Champagne glass and sang these tunes and many others like them, poorly. And so the spirit of songs that touch the heart and leave a lasting emotional impression got into me. For the next thirty five years I would sing everywhere.In church, in my car, in the shower, at work in my dreams. I thought I sounded like my Dad. But, eventually many people began to tell me that they really enjoyed listening to me sing. I wasn't sure.... Then some how, things came together for me to record these songs for you.... HARRY P.S... Now I sip good beer from a Champagne glass.
