Hot Buttered Rhythm lays down some relitively unexplored law with progressive beats that groove and swing...hard! "Hot Buttered's goal is to relate our musical influences to our present take on today's contemporary sounds. We play what we feel. The CD (most of which is a sonically fit live recording) is a showcase of the bands raw live energy and this one is all about the JAM, ya'll - sometimes shifting back and forth from unadulterated funk to hip traditional jazz."
