

# Mp3 Jose Antonio Saldana - Once Far Away

[DOWNLOAD HERE](#)

Latin style sounds with flowing guitar to life changing stories inspired by the Love of our Lord Jesus Christ. 10 MP3 Songs EASY LISTENING: Lounge, CLASSICAL: Contemporary Details: Just a little about my self. I am always asked when did I start playing the guitar, and I like telling this story of when I first show interest in playing the guitar. I remember this picture my Mom had of me when I was about three years old with a guitar in my hands. I asked her about it, She told me I cried and cried for her to buy me the guitar. It was one that I had seen in the store window, She said thats when she took the picture of me holding the guitar. I can,t remember that far back but I remember the picture. I later started playing the guitar with my cousin who taught me the bass and rhythm to some Latin style music. Then soon after I started playing my own music with my first guitar, which was an Alvarez acoustic electric. I bought it from a friend who also played the guitar with us. We would play for hours where ever and when ever we could. Mostly at the park in Tracy, California on the south side of the railroad tracks. Everyone called it Southside park or McDonalds park . Anyone of us could be found playing there at any one time, and soon we would all make it there . Over the years our lives would take us down different paths. But we try to get together here and there. Since then I have written quite a bit of songs, Loves songs, party and dance songs, were all the type of songs I had written. I attend Church at the Tabernacle of Praise in Manteca, California. I wrote a few songs that gave our Lord Jesus Christ Praise, something I never done before. So before I would try and finish with any other recordings, I prayed for the chance to be able to Praise Him with a album, and he has bless me with ten songs. So with this album I hope to give back to the Lord for I have robbed him long enough, yet he has had alot of patience with me. I give him all the Praise and all the Glory. May you also EXPERIENCE THE PROMISE as I have. This I pray in Jesus Name amen.
