They say Life is a game, so as humans we must play. 20 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, HIP HOP/RAP: Southern Style Details: I was born and raised in Decatur, Ga and first got involved with music at a young age. I would listen to anything from my mother's old records around the house to the latest stuff on the radio and even classical music and try and re-create the melodies on a keyboard piano. I began rapping in high school when I decided to convert my poetry into flow about my surroundings. I hooked up with a crew called the legion that included another producer (Sance), and three other MC's (Black Rose, Heavenly, DGO). We performed at hole in the wall clubs and sold self produced CD's in High School. The group eventually went their separate ways because of school and work, but we still keep in contact. I am currently at Georgia Southern University and still grinding with the music. I hooked up with two homeboys down in school to form the group Underestimated and linked up with one of the hottest DJ's in Savanna (DJ Flux). I have recorded and produced tracks for other fellow artists at Georgia Southern (shout out to Slimm Duddy, Rel, Amp, Twan from GSUB, GMI,GME, Ena Horne, Bobby Drake, Lil B, Strike Team, Skinny C Showtime, Dre Money). I am currently back and forth between Atlanta and south Georgia trying to make it happen.
