POP: Today's Top 40, ROCK: Acoustic Details: My name is Tim Angsten and I'm a 20 year old gent out of Grand Rapids, MI. I just started a new solo project called M-22. I finished my debut album "In My Mind" this summer (06') and I am extremely proud of how it turned out. I think you will find the mix of Duncan Shiek, Dave Matthews and many other soothing artists to be a very calming experience. I hope I get to know as many of you that join the M-22 list of friends as I can. To break the ice here's a little bit about me. I struggle through life just like every other person on this earth. I hate going to work, watching the minutes turn to hours and stepping outside just to see one more day has faded away. I love my family and the few true friends I have. I'm in my second year of college and it's been a crazy journey thus far. I enjoy spending my summer days on the lake doing nothing productive at all and burning my skin until it hurts to sleep at night. Sometimes I lie in bed at night staring at the ceiling wondering where the years have gone. The only difference between you and me is...nothing! I just put my life into song. You think, feel and live through the same joys and struggles that I do. I hope this is down to earth and refreshing for you. Here are my feelings poured out to you. I hope you enjoy and relate to them. I also hope we can start some great friendships through this new project, M-22. I'd like to give a big thanks to my brother ("Big T") and my father for helping me with this album. And also a thanks to all my closest love ones. You truly help me through this wild journey known as life.
