Featuring Jimmy LaValle Of The Album Leaf and Samuli Kosminen Of Mm!!! 'The Silence' Was Recorded In Reykjavik, Iceland And It Was Produced By Gunnar Tynes Of Mm (His First Album Production), Iceland's Axel rason, Jimmy LaValle, And Samuli Kosminen. Mar was my mother's name. She passed away of cancer in 1999. Even when there were no signs of hope, she dreamed ridiculous dreams. Everyone should dream ridiculous dreams. It's our only chance to do so. Mar was founded by me, Kyle Reidy in early 2004. We went through several changes in line-up before settling with the final four who pulled through and actually recorded the debut album a year later. Patrick Atkinson (electric guitar), Nate Reed (electric guitar), and Claire Long (keyboards) were a part of Mar with me until April of 2005, after a tour with The Album Leaf. All three are very intelligent and creative musicians and each of them had their share of writing 'The Silence'. After the tour everyone went their own way and I stayed with the name and will continue to make Mar albums and do live tours.
