a Mix of Acoustic Blues, Folk Rock and Ballads played in Multiple Tunings and Slide Guitar 10 MP3 Songs

BLUES: Acoustic Blues, ROCK: Folk Rock

Details: "Song Garden" is the second of two albums by "no effect" one year after their debut self titled cd "no effect, an original acoustic duo" We named this one "Song Garden" because of the wide variety of material that grew from our collective writings in the last year. This cd is a little heavier on the side of Acoustic Blues but still has a good mix of Folk, Finger Style and Ballad throughout it's ten tracks. An exciting bonus is the addition of some harmonies you haven't heard before. Five of the tracks are brand new songs, three of which have not been performed yet live. You're going to hear some things you liked before and, some new things that may pleasantly surprise you.
