Catchy, foot-tappin', funny, sexy and some lovin' thrown in fer good measure. 12 MP3 Songs COUNTRY: Country Pop, COUNTRY: Country Rock Details: Howdy, I'm a guy who tried for years to get a record deal and lost a goodly amount of my hair but not my humor or skills! I can craft a song so that you can remember it, dance to it, whistle it and get it stuck in yer head! I also write beautiful ballads and can't figger out how "Mr. Moon" never got me an Grammy...but the vagaries of the moosic biz aside, this is one fun collection of songs that shoulda been hits and here's your chance to help them get outta the barn and make your butt shake!! (What is a "butt shake", by the way, is that two parts ice cream and five parts rear muscle?) Oh yeah- I did all the voices, all the instruments and all the graphics and art! This here's a virtual band! Thanx!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! Pauly
