Just what everybody needs, some humor, funky grooves with heart-felt stories. 11 MP3 Songs POP: Quirky, COUNTRY: Country Pop Details: Ray Burkhart has hit again. This is not the serious side of Ray, this is the relief pill we all need. Some very funny and touching music is gathered in this CD. From the silly "Cow Bingo" to to the heart-felt "Band Room Man", this CD is a roller coster ride of emotions. "Band Room Man" is a tribute to the man who planted the seed of music in Ray in 1964. The photo on the back of this CD is the actual bandroom where this started. Ray Burkhart established himself in the CD "Stand Up For America" as the serious, time to get busy, fix things up now kind of guy. Well "Cow Bingo" ain't dat. Yet, mix in with this relief pill is the ballad, "Take It On The Arches", a message of spousal abuse and dealing with the 'bully'. Wham !!! In your face. So I guess life's not always funny. Buy this CD and enjoy the ride. (Look for other CD's by Ray)
