In keeping with the concept of their label, Race of Tan Records - the coming together of races and cultures in the art and spirit of music - TWO infuses Latin, Euro, funk, Eastern, Asian and Celtic influences with electronica soundscapes to create eleven original tracks that transport the urban soul across the planet. Archangel Menezes on keys and Eddie Paton on guitar sonically take you places with music that excites, soothes and moves. Bob Basas melodic bass drives the tracks that feature stylistically diverse guitar solos and an exotic array of world instruments.
