Melodic vocal harmonies and a tantalizing mix of musical styles form the dynamic base for the debut set of "Tater Tunes". There's a surprise around every corner - come enjoy the ride. 10 MP3 Songs POP: California Pop, ROCK: Folk Rock Details: The Taterbugs (Kevin Huston and brothers Randy and Jeff Sweet) have been writing songs and playing music together off and on, "just for fun", for years and years. Follow Your Heart is truly a "home grown" CD; we wrote the songs, did the studio engineering and produced the art design. Kevin's remarkable grandma created the painting that we proudly display on the front cover; she also provided the inspiration for Randy's song Jessie Lateer. Although studio recording can seem like work at times, a discerning listener will recognize that we had a lot of fun making this CD.
