The Treemouth sound can be best described as "Trip-Pop-Rock". With this form, the rock sounds of the guitars line up with the trip-hop atmosphere and the electronic vibes of the keyboard. The music is carried by the sad voice of the singer, whom makes a storm break out. In its first album, Treemouth put together poetry, feelings of a cold and mechanical world. Angelo wanted to capture the feelings of human beings, playing on the melody for the refrains to be anchored gradually in our minds. More than ever, the musicians of the band play with their hearts. The songs atmosphere is emotional and distressed. The keyboards give a real depth while the guitars are extremely efficient. People who are interested in Radiohead Placebo Coldplay should consider this download.
