

# Reanalysis Of Structures

[DOWNLOAD HERE](#)

Contents- 1 Static Analysis - 1.1 Linear Analysis of Framed Structures - 1.2 Linear Analysis of Continuum Structures - 1.3 Solution of the Linear Equilibrium Equations- 1.3.1 Matrix Factorization- 1.3.2 Iterative Solution Procedures- 1.4 Nonlinear Analysis - 1.4.1 Geometric Nonlinearity - 1.4.2 Material Nonlinearity - 1.4.3 Time Varying Loads- 1.4.4 Buckling Analysis - 1.4.5 Solution of the Nonlinear Equations - References - 2 Vibration Analysis - 2.1 Free Vibration- 2.1.1 Properties of the Eigenproblem- 2.1.2 The Standard Eigenproblem and the Rayleigh Quotient - 2.2 Solution of the Eigenproblem- 2.2.1 Static Condensation- 2.2.2 Solution Methods- 2.3 Vector Iteration Methods- 2.3.1 Inverse Vector Iteration- 2.3.2 Vector Iteration with Shifts - 2.3.3 Matrix Deflation and Gram-Schmidt Orthogonalization- 2.4 Transformation Methods - 2.5 Polynomial Iterations- 2.6 Rayleigh-Ritz Analysis - 2.6.1 Approximate Eigenproblem Solution- 2.6.2 Load-Dependent Ritz Vectors - 2.7 The Lanczos Method - 2.8 Subspace Iteration- References- 3 Dynamic Analysis- 3.1 Linear Dynamic Analysis - 3.1.1 Direct Integration- 3.1.2 Mode Superposition- 3.1.3 Special Analysis Procedures- 3.2 Reduced Basis- 3.2.1 Static Analysis - 3.2.2 Dynamic Analysis- 3.3 Nonlinear Dynamic Analysis- 3.3.1 Implicit Integration- 3.3.2 Mode Superposition- References - 4 Reanalysis of Structures- 4.1 Design Variables- 4.2 Formulation of Static Reanalysis- 4.2.1 Linear Static Reanalysis - 4.2.2 Nonlinear Static Reanalysis- 4.3 Formulation of Vibration Reanalysis- 4.3.1 Eigenproblem Reanalysis - 4.3.2 Iterative Procedures - 4.4 Formulation of Dynamic Reanalysis - 4.4.1 Linear Dynamic Reanalysis- 4.4.2 Nonlinear Dynamic Reanalysis - 4.5 Reanalysis Methods- 4.5.1 Direct Methods - 4.5.2 Approximate Methods - 4.5.3 The Combined Approximations Approach- References - 5 Static Reanalysis - 5.1 Determination of the Basis Vectors... EAN/ISBN : 9781402081989 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Kirsch, Uri
