

The Art Of Education: Internalizing Ever-new Horizons - Rabbi Yitzchak Ginsburgh

With so much information readily available today, the educator's role must go beyond simply transferring knowledge to students. Drawing from the deep wisdom found in the classic teachings and stories of Kabbalah and Chassidut, The Art of Education focuses the educator on creating a lasting impression on students by opening their spirits to their own higher realms of consciousness and by helping them integrate newly found energy, will, and insights into everyday life. The Art of Education surveys the seven skills of the accomplished educator: communication, self-criticism, recognition, flexibility, attention to details, prioritization, and the correct use of reward and punishment. Together, these seven skills form a Kabbalistic structural model that when properly understood functions like a neurological key unlocking the inner educator in each of us.
