I want to share with you one of the biggest mistakes affiliates make. I want to share this with you so you won't make the same mistake: The one major mistake many affiliates make is not setting up a list. Affiliates will often send traffic that they generated to affiliate links, rather than a list. When they do this, they are unknowingly making a bet that visitor will buy on first contact. Unfortunately, this is generally not the case. Visitors often need to be warmed up to a product through the course of multiple visits and additional information before they are willing to purchase from a person or a business. This is where building a list comes into play. By building a list, affiliates can fix this problem. Additionally, they can retain traffic, warm it up, and then direct it to different purchases in the future. This means that it isn't a one-shot deal: instead, they can attempt to sell the same person multiple products over the course of time. You've purchased this product with full Master Resale and Redistribution Rights. More The Best Products with PLR or MRR at lucky7.tradebit.com Tags: mrr
