After growing frustrated, and a little desperate, I developed a program to help me receive traffic to my web sites that I call Instant Booster. This traffic is completely unique, you will not find any other software out there like it. The Instant Booster will instantly divert THOUSANDS of fresh, new, completely unique visitors to your web site or affiliate web site each and every day from major search engines like Yahoo, Google, MSN, and many more. Instant Booster does all this for FREE and automatically. How does the Instant Booster software work? The Instant Booster software is easy to set up and use. Once you have installed this software you insert the URL of your web site, choose the keywords that you want to use to attract visitors, and then Instant Booster will begin diverting customers to your site from thousands of other sites.

How simple is that? You never have to pay any additional fees or do anything else. The software runs completely on auto pilot. What are the benefits of using Instant Booster? Instant Booster does exactly what it claims. It will instantly increase your web sites traffic by sending thousands of new visitors to your web site. If you are selling products at your web site then this will instantly boost these sales which will dramatically boost your income! Unlike many softwares that claim to do the same thing Instant Booster doesnt just send you random traffic. By diverting visitors from major search engines such as Google, Yahoo, and MSN, using keywords you will only be receiving targeted visitors. These visitors have found your web site using keywords that they were searching on their own which means that this traffic will convert much better than untargeted traffic. In addition to getting all of this traffic you will also, automatically, get thousands of high ranking sites who are eager to exchange links with you. You will start receiving emails from high ranking, high PR sites that have noticed the enormous amount of unique traffic coming to your site and your growing search engine popularity. Now you will no longer have to dread beginning higher ranking, more popular, web sites to exchange links with your site. These sites will now be coming to you! By using this software you will be INSTANTLY boosting your web sites traffic, search engine ranking, and sales. Many customers who have purchased this software now have more sales and customers than they can keep up with!
