Easy listening mood music 10 MP3 Songs EASY LISTENING: Mood Music, CLASSICAL: Film Music Show all album songs: the River Wharfe Songs Details: Andy is a first-rate writer, charismatic performer and, not least, excellent fellow. It has been an education and delight to talk with him, and to hear him perform. Hes unique, and a most welcome addition to the cultural scene in New York. The River Wharfe, a collection of instrumentals.... a number of the songs on the album exude an old world charm, so unusual and delightful, and put me in mind of Anton Karas (most famous for writing the theme for The Third Man). But again, I find myself making comparisons in an attempt to convey Andys style, which in the end is his own, a kind of classical jazz. Andy writes and performs popular music at its best. I salute the confidence he has in his abilities, his willingness to go his own way, his enthusiasm for acoustic sound, the whole package. Rex Roberts, New York Film Journal
