

Mp3 Art Paul Schlosser - Smile You're On Kandid Kamera

[DOWNLOAD HERE](#)

Some very bitter songs that I wrote being depressed and commenting on the reality of life and some really Fun Happy kids songs too. 22 MP3 Songs FOLK: Angry, POP: Quirky Details: Hey to begin with Happy Father's Day If you are a new Father you might like this song especially if your new baby is a girl. I Heard You Just Had a Baby by ART PAUL SCHLOSSER 1. Well I heard you just had a baby And I heard that she just maybe Was Wonderful Beautiful A Darling Yeah I heard she was a Bundle of Love And she's Angel And a Dove And God gave her to you so you could have someone to love Well be careful what you do Yeah She's gonna imitate you So you got To be A good example 2. Well I heard you just had a baby And I heard that she just maybe Was Wonderful Beautiful A Darling Well I pray that you are wise And I pray you realise What it takes To be A good Father Some of the other songs on this CD are of a very dark period in my life before I met my wife and some are very happy kids songs. I had mixed feelings when I recorded this because part of me wanted to put some of the songs seperately on a kids CD. The title track and Your life is a Circle are songs that when I perform them live on State street they are like video plays When I do the Title Track I act like they are filming us and when I do Your Life is a Circle I play guitar while spinning around in circles. The CD originally was suppose to come out about 2001 after Ron Dayne broke the record and won the award here at the UW. Another interesting song is Amazing Grace where I added 7th chords to make it more of a Jazz style or Rock N Roll style song. Many words about the CD could be written but you'll never know if it's what you like unless you play the clips. One last thing about the CD is the song The Back Street Boys(I Want To Kill them) wasn't written so much to literally kill the Backstreet boys but rather I am trying to make a statement about Top 40 radio and how it makes you feel especially when they play some romantic song over and over and over. Sorry you can't hear that here but if you request it on Dr Demento at: clamhead.com/drd.php I'm sure he might play it and soon it will be

in the download stores all over the internet including Apple iTunes.
