10 slices of rock n roll pop pie served up to your naked steaming ears baby 10 MP3 Songs ROCK: Modern Rock, POP: Power Pop Details: Wow! What a year 2005 has been so far. After forming in the spring of 2004, Divided By Three (dB3) put out their debut CD (currently available on cdbaby as well) in January 2005. We then turned around and spent 9 days in February recording the bulk of our second CD which became available September that same year. I have to admit that if I wasn't obligated to the rest of my life outside of music, I would have been able to deliver you, yet a third disc before 2005 was up. But life provides us with terrific material, so I wouldn't recommend missing it;-) Although I can promise you that the third disc will be a monster, packed with rock solid songs and our most powerful writing to date. Look for it in 2006. We hope you thoroughly enjoy the second disc. It reflects a band that has finished forming it's identity, gained confidence, and stomped on the gas! Divided By Three (dB3) continues to be: Curtiss Long-drums Tim Long-bass/vocals Michael Wilkinson-guitar/vocals/piano
